WORK EXPERIENCE

Acxiom

Senior Solutions Developer

Remote
October 2021–present

Full stack Java/JavaScript developer for Wal-Mart Financial Services used in over 4,000 stores

- Work with architects to help shape architecture and design of new features.
- Architect, design, and implement improvements and automations.
- Lead improvements of development processes to enhance developer productivity, reduce burnout, and accelerate timelines by reducing friction for developers.
- Create documentation and training presentations aimed at streamlining the onboarding process for new developers.
- Mentor and provide one-on-one training to new developers.
- Crafted a bespoke, multi-layered CI/CD pipeline to fit the stringent security constraints and complex needs of our team.

Solutions Developer

February 2017–October 2021

Full stack Java/JavaScript developer for Wal-Mart Financial Services used in over 4,000 stores

- Led the successful delivery of several month-long release cycles, encompassing workload distribution across global teams, close collaboration with project management to ensure on-track releases, bug resolution alongside testers, and assisting deployments to all environments.
- Proposed and implemented several improvement projects that greatly increased team productivity and accuracy.
- Created and maintained documentation.

JB Hunt

Programmer

Lowell, AR
May 2015–February 2017

Full stack Java developer for Integrated Capacity Solutions and Load Planning

- Developed new features and maintained core software for truck load brokerage and truck load planning services.
- Migrated existing software to a modern technology stack.
- Collaborated with cross-functional business teams to design and implement a new application.

Programmer Intern

September 2013–May 2015

Java developer for Integrated Capacity Solutions and Load Planning

- Assisted in the development of new features and bug fixes in existing projects.
- Participated in code reviews.
- Used version control systems to effectively collaborate on development.
- Collaborated across teams to deliver new features.
